Annual Feed Production Statistics for the Year Ending December 2018

These statistics report total tonnage of manufactured animal feed and total tonnage of raw materials used in feed production. This report does not include blended feed.

These statistics now include the breakdown of species specific data for feed production. This breakdown had been excluded in previous publications between 2010 to 2012.

Please note all figures reported in the tables below in this Executive Summary are in metric tonnes (unless otherwise specified).
